

CAREER OPPORTUNITIES

If you are looking for a challenge with a high-flying organization, then look no further on. Lufthansa Technik Malta set up in 2003 to serve as a “Centre of Excellence” within the Lufthansa Technik group today prides itself in an ever-increasing customer base including a number of airline companies operating in Europe and the Mediterranean. Lufthansa Technik offers individuals career paths and development opportunities for the right candidates.

The Company is receiving applications from suitably qualified candidates who would be interested to work as mechanics within our aircraft maintenance operation.

Unlicensed Aircraft Mechanics

As an unlicensed aircraft mechanic, the prospective employee will be performing routine maintenance tasks related to the Mechanical, Hydraulic and Pneumatic, Power plant and Aircraft Systems. The successful candidate will also ensure a high standard of quality, housekeeping, Health and Safety and tool care.

Applicants should possess either of the following:

- OTD/BTEC National Diploma
- HTD
- ATD/Full Tech Certificate in Mechanical Engineering or equivalent.
- Part 66 Aircraft Maintenance Category A Licence.

In addition, successful candidates would:

- Have ‘O’ level passes in English and Maths.
- Be computer literate.

Unlicensed Avionics Mechanic

As an unlicensed avionics mechanic, the prospective employee will ensure maintenance of all electrical and electronic aircraft systems. The successful candidate will also ensure a high standard of quality, housekeeping, Health and Safety and tool care.

In this respect, holders should possess:

- Fellenberg or HTD/HND Electronic /Electrical or equivalent
- Part 66 Aircraft Maintenance Category A Licence

In addition, successful candidates would:

- Have ‘O’ level passes in English and Maths.
- Be computer literate

These are first class opportunities for a career prospect and therefore applicants must be prepared to attend Aircraft Maintenance related training courses held both locally and abroad.
